Sunday, : : : : : December 9, 1866

DISTRESSING ACCIDENT .- We learn that the Spring House of Rev. W. W. Kone fell down on Tuesday last and killed one of his little children .-Brandon Republican.

Why are young ladies kissing each other like an emblem of Christianity? Because they are doing unto each other as they would that men should do unto them.

The Memphis Commercial says that a member of the recent Presby terian General Assembly, in Memphis, fell among thieves, was drugged and robbed of three hundred dollars.

The York Herald's Washington correspondent thinks that Simon Cameron will be re-clected to the United States Senate from the State of Pennsylvania on the 15th of January.

Capt. Dan Able, and Col. W. W. Coleman, of Memphis, refused seats in the Tennessee Legislature on account of alleged informality in election, have been re-elected by a flattering majority.

Some of the Paris physicians have princely incomes. Dr. Campbell (accoucher) makes \$60,000 per annum Nelatin (surgeon), nearly \$200,000 and Velpeau and Ricord very large sums, though both too old to do their patients justice.

Dr. Mary E. Walker is in London delivering 18 d. L. in trowsers. As to the trowsers the Londoners take them very cooly. They are accustomed to see them worn by the bathing women on the coast and by the pretty ballet girls on the stage, and, really, trowsers are not such dreanful things when you are used to

FASSMANN'S PATENT IRON TIES!! For Cotton Bales.

UNITED STATES PATENT, APRIL, 1865. FASSMAN'S PATENT IRON TIES, the hoop for the button is punched with two holes at one end and fifteen at the other. The band has only to be drawn tight, the holes in the two ends to be brought together.—the two hole end on top— and the button inserted. One button will answer,

but it is better to inserted. One button will answer, but it is better to insert two.

With the Buckle Tie, one end of the hoop is fastened to one section of the Buckle, the other end is inserted in the other section, and simply shoved through it under the other end as long as there is any slack. A bite on the buckle holds it securely to the its along. to its place.

The hoors are painted to prevent rust, and cut in lengths of 10, 104 and 1 feet. Ten feet are most generally used, but 104 and 11 are sometimes required for large bales. The buckles are fastened to the hoops, the buttons will be put up in small boxes.

The Weight is About 10 Pounds to the Bale of Cotton. The advantages of iron over rope for baling cotton are now universally acknowledged. It holds the bale in a much smaller compass; is applied and fastened with as much facility, both in the country pressing and the re-compressing at the sea ports; lessens immensely the risk from fire; is stronger, lessens immensely the risk from fire; is stronger, and its strength is not impaired by time and exposure as is that of rope. This last advantage has beed strikingly manifested during the war. Thousands of bales of Cotton have been lost by the rotting and breaking of Rope which could have been preserved if Iron hoops had been used. In addition to this, it can be furnished cheaper than Rope. The derangement of labor in the hemp growing States as reduced the supply of hemp to such an extent as to cause prices to rule unprecedently high: indeed a sufficiency for baling a moderate cotton crop, cannot be relied on at any price. cannot be relied on at any price.

I have arranged for the importation of a large quantity of the best English Iron, and have made arrangements with Messrs. Chambers & Latting for

the sale and delivery of my Ties. The undersigned, Fire Warden and Fire Inspector of the New Orleans Insurance Companies, are of opinion that the Iron Tie affords greater protection against loss in case of fire than the old style of baling J. YOUENES, Fire Warden, JOHN ADAMS, Fire Inspector I concur in the above

ALFRED BELANGER, Ex-Chief Engineer, Fire Department.

SHIP REFUGE, NEW ORLEANS, July 7, 1859. H. Fassmann, Esq., Orleans Cotton Press: SIR: In January last I received from your Press 1089 bales of cotton, of which about 1000 were recom-pressed and bound with your new "Iron Tie." can safely affirm that the cotton so bound was re ceived in better order than it generally comes from the Presses, that it stowed better, and enabled the The cotton when discharged from the ship in Liverpool, was in better order than the repe bound cetton, it is highly preferable for a ground tier, as dampness from the ballast has no effect upon it, for it is well because the same and the s it is well known by practical men that dampness will rot the rope bound. I can confidently recommend your "Iron Tie," as I took this lot for an experiment and carefully watched it both in loading and dis-

I am Sir, Yours Respectfully, JOHN HOWARD, Master CHAMBERS & LATTING, Cotton Factors, Agents for Fassmann's Iron Ties and Dealers in Bagging, Rope and Twine, 6m. jyl2d&w NEW ORLEANS.

CRANE, BREED & CO.,

NEW ORLEANS, LA., MANUFATURERS OF Hearses and Metalic Burial Cases and Caskets. WOULD call the attention of undertakers and the public, to their large variety of Hearses of the most approved patterns, and of

and durability. We are constantly improving the style and construction of our Metallic Burial Cases. Our "New Plain Case," patented December 12, 1865, combines all the most recent and valuable improvements, and is more complete than any Burial case ever before invented. Our Metallic Burial Casket, in its simplicity of design, and its freedom from all associations of grief, is unsurpassed. It is almost entirely covered by the best polished plate glass. Its finish is that of the finest rosewood. The Ornamental Casket, with its heavy and elaborately-

the finest finish-unrivaled for elegance, utility

wrought emblematical ornaments, their bright silver contrasting with the dark polished ground work, is of striking and appropriate elegance. Over wooden coffins, these Burial Cases and Over wooden coffins, these Burial Cases and Cakets possess many important advantages. They protect from water, vermin, and other intrusion, answering for generations every necessary purpose of a vault. Removal from the original place of burial—should it ever be desired—can easily be accomplished. Bodies can be preserved for days or weeks, awaiting the arrival of absent friends. Removal to any part of the globe, at any season of the year, is entirely practicable. The surest safeguard is effected against contagious diseases. effected against contagious diseases.

Directions accompany every Burial Case and
Casket, in reference to closing, and should be

strictly followed.
